## Community Voices

- Do you want your organisation to
- Value diversity.....
- Increase their awareness of disability and enhance community harmony ?

The Project uses skills and first-hand experiences of Community Voices to educate and raise awareness about the diversity of the community.

Community Voice members are people from the community from diverse backgrounds with disability and their families and friends who are trained in public speaking and who are willing to share their stories.

## Community Voices

What do you get out of it?

The experience of the Community Voices will provide a starting point for discussions.

This important discussion will assist your organisation and the wider community to understand some of the broader issues faced by people of minority communities

- ◆ Access and equity
- ◆ Attitudinal barriers
- ◆ The benefits of diversity

What is MDAA ?

The Multicultural Disability Advocacy Association of NSW (MDAA) aims to promote, protect and secure the rights and interests of people from culturally and linguistically diverse (CALD) / non-English speaking backgrounds (NESB) with disability, their families and carers in NSW.

MDAA is considered the peak organisation and the only organisation in NSW that work *with* and *for* people from CALD / NESB with disability, their families and carers in NSW. We do this through individual advocacy, information sharing and representing their rights and interests at a systemic level.
