

Dates: March 20–21, 2025

Theme: Social Cohesion, Racism, and the Future of AI in the Disability Sector

Expression of Interest (EOI) – Present at MDAA's Beyond Barriers Conference 2025

MDAA (Multicultural Disability Advocacy Association) is calling for expressions of interest to present at the Beyond Barriers Conference 2025, a landmark event bringing together a diverse group of academics, students, policy makers, and professionals in the fields of disability, social sciences, and artificial intelligence (AI).

This year's conference will focus on the intersection of social cohesion, racism, and the future of AI within the disability sector. We invite presentations that explore how these critical themes intersect and impact individuals with disability, especially those from culturally and linguistically diverse communities.

We encourage submissions addressing topics such as:

- **Racism and Disability:** The unique challenges faced by people with disabilities from minority backgrounds.
- **Social Cohesion:** Approaches to fostering inclusion, respect, and mutual understanding across migrant communities.
- **AI in Disability Services:** Exploring how emerging technologies can improve or exacerbate disability support services and outcomes.
- **Future of AI in the Disability Sector:** Ethical considerations, accessibility, and ensuring that AI serves people with disability in fair, inclusive ways.

Who Should Apply?

- Academics and researchers in disability studies, AI, social sciences, and related fields.
- Students and emerging scholars with innovative ideas and research.
- Policy makers and professionals working within the disability sector or AI development.
- Individuals with lived experience of disability and those advocating for inclusive AI practices.

How to Apply

To express your interest in presenting, please submit a proposal including:

- Title of presentation
- Abstract (max 300 words)
- Biography of the presenter(s) (max 150 words)
- Relevant background and qualifications

We look forward to receiving your proposal and joining you at this exciting event that will shape the future of disability, social inclusion, and artificial intelligence.
